

Mid-Size Unit

650 Airwatts

POWERFUL. QUIET. CLEAN.

The image shows a tall, cylindrical central vacuum unit. It has a silver aluminum body with a dark blue band in the middle. The 'airstream' logo is printed in white on the blue band. The unit has a rounded top and a wider base. There are two black electrical outlets on the side and a handle near the bottom.

airstream

The Airstream Model AS650TF-22 Central Vacuum is constructed with stainless light weight aluminum. The soft start motor technology will ensure your Airstream central vacuum has a long system life.

This high performance unit has 650 airwatts of suction power. It has an Ametek thru-flow motor, this highly efficient motor uses filtered vacuum air to cool the motor.

The hybrid technology offers a permanent primary filter with a secondary filter bag option. When you choose to use a filter bag, you will have added HEPA type filtration to your system to ensure the allergens and pollutants are trapped in the bag for easy removal.

FEATURES:

- Beautifully spun aluminum
- 650 Airwatts Power
- 22 Liter (5 gallon) capacity
- Dual Intake for easy installation
- Self Cleaning Filter
- High Efficiency Disposable Bag
- Soft Start Motor for Extended Life
- Compatible with all Airstream Attachments
- Warranty covers 5 years for parts
